

How to Set Up the GDMFX AutoTrade Through MyFXbook

1. Introduction

The AutoTrade enables a trader to start copying trades of another trader automatically into his own account. While this feature can be useful, you have to bear in mind that it is associated with the Risks inherent to Forex trading, of losing the capital you have invested. Please make sure you go over the [Legal Documents of GDMFX](#) and the Terms and Conditions of the MyFXbook AutoTrade, before you enable this feature.

2. Linking an existing Trading account to the AutoTrade

- Please log into your [Trader's Room](#) → Open an Account, and open a new trading account whose account type is MyFxBook

The screenshot shows the GDMFX website interface for opening a trading account. The page title is 'Open a Trading Account'. A green success message states 'Success. Account correctly opened.' Below this, there are three input fields: 'Account Type' (a dropdown menu set to 'MyFxBook'), 'New Password' (with masked characters), and 'Confirm Password' (also with masked characters). A checkbox labeled 'I agree to the Terms & conditions' is checked. At the bottom of the form are 'Cancel' and 'Submit' buttons. The left sidebar contains navigation links: English Dashboard, Settings, Open Account, Funds, Partner Area, Positions, and Web Trader.

- Go to the [MyFXbook](#) AutoTrade section of GDMFX.com → [Link Accounts](#), and fill out the form. If you do not have a MyFxBook registration, you will need to create one for free. Next, you just need to fill out the form and click on “Connect Account”:

Open A Live GDMFX Account

Step 1	Complete the online GDMFX trading account application . If you already have a live account with GDMFX, please contact customersupport@qdmfx.com to have your account under Myfxbook AutoTrade (you can skip step 2).
Step 2	Please send GDMFX the required supporting documentation such as ID and proof of residence.
Step 3	Once your GDMFX account has been setup, please deposit funds into your live GDMFX account.

Link your live GDMFX account with AutoTrade:

Please note you will have to supply your master password below so AutoTrade can copy trades to your live account. Passwords are transferred and saved in an encrypted format in our servers for maximum security.

Already connected to Myfxbook: Please select (Showing only Live and Verified GDMFX accounts)

Not yet connected to Myfxbook

Account Name:

MT4 Account Number:

Master Password:

Investor password:

Server:

The brokerage account was funded with a minimum of \$1000

I have read, understood and accept the [Terms and Conditions](#).

- Enter an arbitrary name that you wish to use e.g. "Auto Trading"
- Enter your MT4 account number
- Enter your MT4 account's password
- Enter your MT4 account's Investor (read-only password). Usually you can locate this password in your MT4's mailbox
- Choose the GDMFX-Live server
- You need to put a check-mark in both fields and to make sure that you have enough balance and that you have read the TnC

- You will have to wait for MyFxBook's confirmation email that your account has been approved for the AutoTrade:

AutoTrade Request

Dear 

Your application for a live AutoTrade subscriber account has been reviewed. You can see your request status below:

System: 

Status: Approved.

AutoTrade: <http://www.myfxbook.com/autotrade>

Click on this link to go to the AutoTrade section of MyFXbook

Regards,
The Myfxbook team.

3. Following a Trader

- When you go to the [AutoTrade section of MyFXbook](#) you will see a list of traders. You can open their profiles and see their statistics. When you like someone's performance you can start copying his/her trades automatically into your GDMFX account by clicking on the “AutoTrade” button within the trader's profile:

- Adjust your multiplier, and any additional settings that you deem fit. Make sure that you familiarize with the Terms and Conditions of MyFXbook, and that you agree with them before you proceed.
